

Class 1 Update

Hi Chase and Charlie!

I hope you are both well and have been able to get out and enjoy the sunshine.

Lots of the other children are back in Class 1 now, and we have been busy learning about honey bees. Have you seen any? Such busy little creatures! Perhaps you could have a go at drawing a bee, or find out some more about them.

This week, we have been learning about coral reefs and the sorts of sea creatures that live there. The children have painted some lovely fish, had a go at making seaweed and coral and learnt about reef sharks.

We've also read Julia Donaldson's "Sharing a Shell". Perhaps you have this book? The children worked together to retell the story and we learnt a little bit about hermit crabs. Perhaps you could try to retell the story with words or pictures. If you don't have a copy, you can watch it online:

We have also been practising Number Bonds to 10. How many ways can you think of to make 10? Perhaps you could use building blocks or lego in two different colours to find out!

I hope you are both well and look forward to seeing you.

All the best,

Mr. Sexton and Class 1.
