

Week beginning 11th May

We have had another busy week in school. The weather has been very changeable, with sun one day and a temperature of only 9 degrees inside the next day.

We tried to do the Jo Wicks workout every morning. We are getting really good at it now!

We learnt about France. The activities included putting the French flag on our den and painting images of the Eiffel

We did a mini-project on chocolate.

We learnt a lot about chocolate, but our favourite part was the chocolate tasting!

We learnt that the biggest chocolate bar in the world was 4m x 4m x 15cm. We used paper to show how big it was.
